

Hello! My name is Mehul Munjani

I am a **UX UI Designer** Specialized
in **Visual & Interaction Design.**

I build digital solutions that solve business problems.

Good design,
Great experiences.

I am Mehul Munjani, a UX UI designer from Dallas, Texas. I currently work with the Citi group, managing the Mortgage website & Bank dashboard design.

I graduated from Gujarat University, India, with a bachelor's degree in commerce. Also, with my bachelor's, I learned multimedia and UX design. Therefore, I love human-centered design methods and processes. As a UX/UI Designer, I understand the importance of perfect UI/UX. My goal is to create beautiful experiences that solve business and user problems.

Check Out My Case Study

Case Study

In my 10 years of career, I worked on many challenging projects. Below are the few I like most.

Space-O Technologies →

Space-O Technologies is one of the leading native app & web development companies in the USA.

HereHere Virtual Dining Chicago →

HereHere is the famous place to book your table for your special occasions.

TripCenter →

TripCenter is the world's leading chartered ground transport platform for chauffeured cars, MPV, minibuses, and chartered buses.

Get Everything Delivered →

GED is a web and mobile application development company and a one-stop solution for all startups and businesses.

Case Study

Custom App Development Company

Space-O Technologies is one of the leading native app development companies in the USA. So far, we have designed and developed over 4400 Android and iOS-based mobile applications for the world's leading enterprises and startups. If you have a project in mind, let's talk.

Space-O Technologies

Space-O Technologies is one of the leading native app & web development companies in the USA.

Task	Make a new design system and hierarchy for the website, rebuild the responsive pages, and ensure it is compatible with WordPress.
Strategy	UX Research, Information Architecture
Design	UI/UX Design, Responsive Design
Tool & Technologies	Adobe Photoshop, Adobe XD, Wordpress, HTML/CSS3
Time Frame	6 Months

Problems

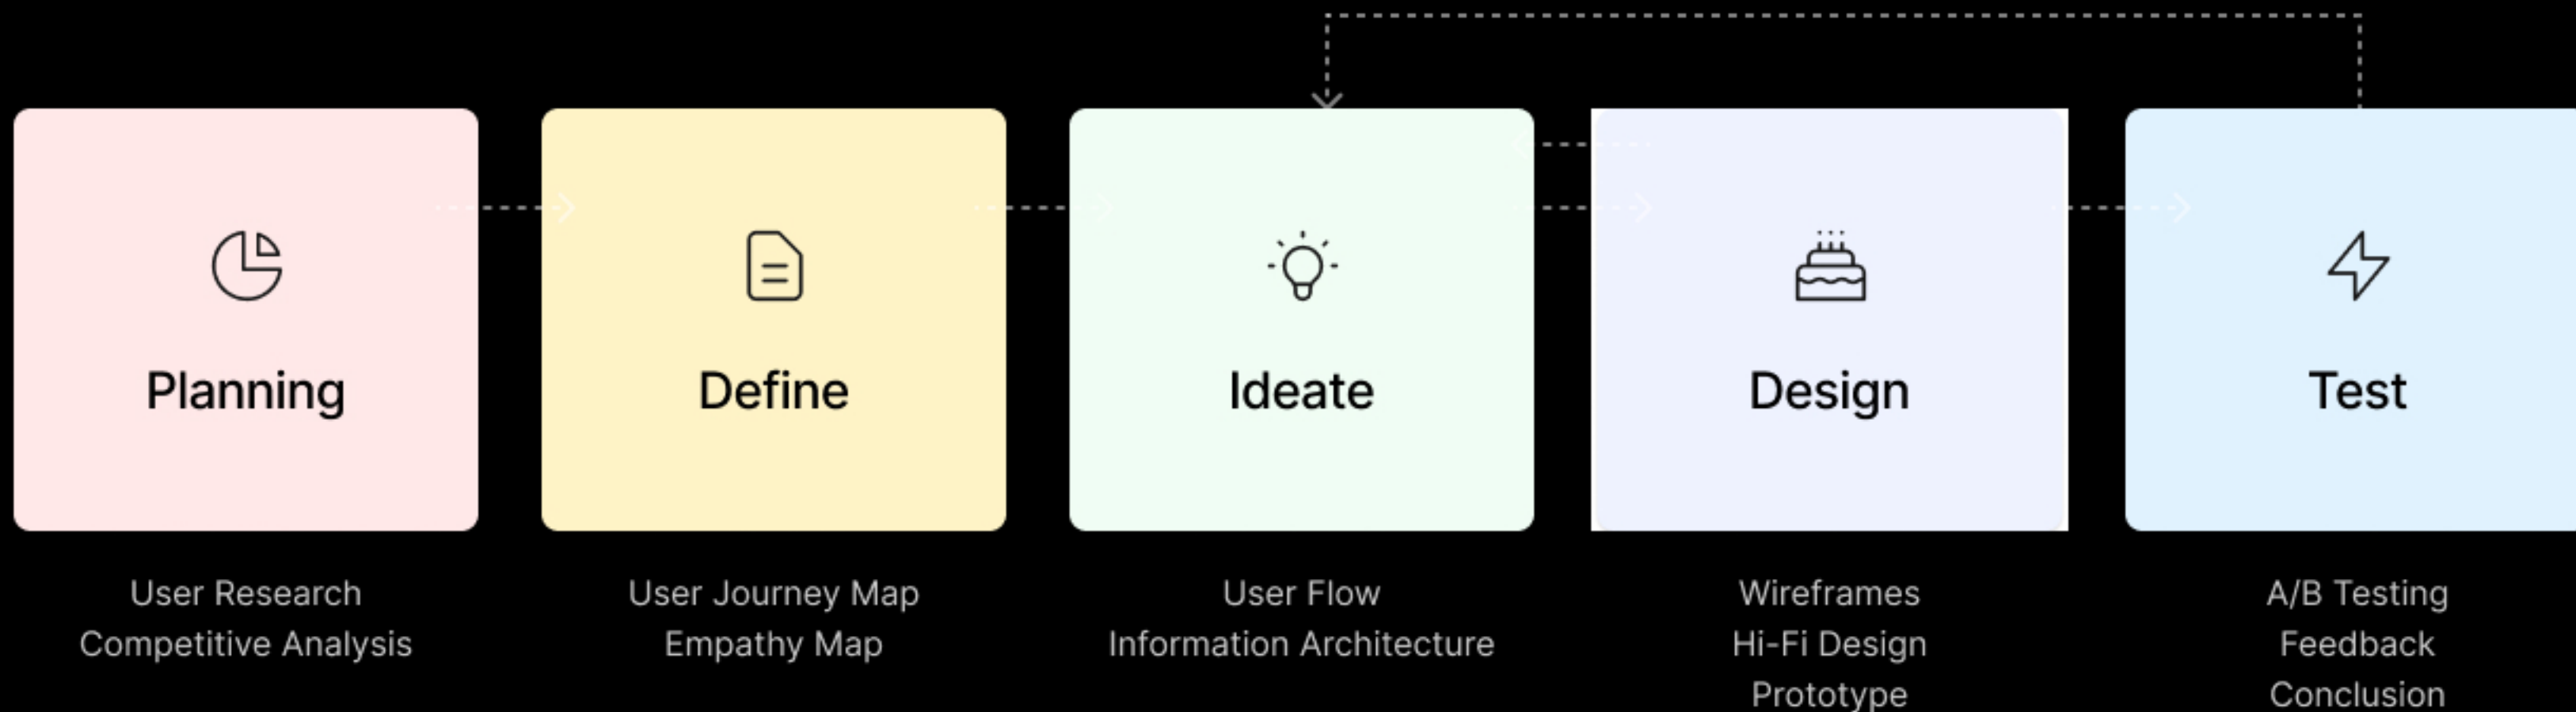

Today, over 90% of Space-O Technologies users come from the website. Due to poor user experience and old design, many users struggle to find the information they want on the website.

Goal

The solution will be to develop a new user experience that allows users to find the information they want.

HERE HERE

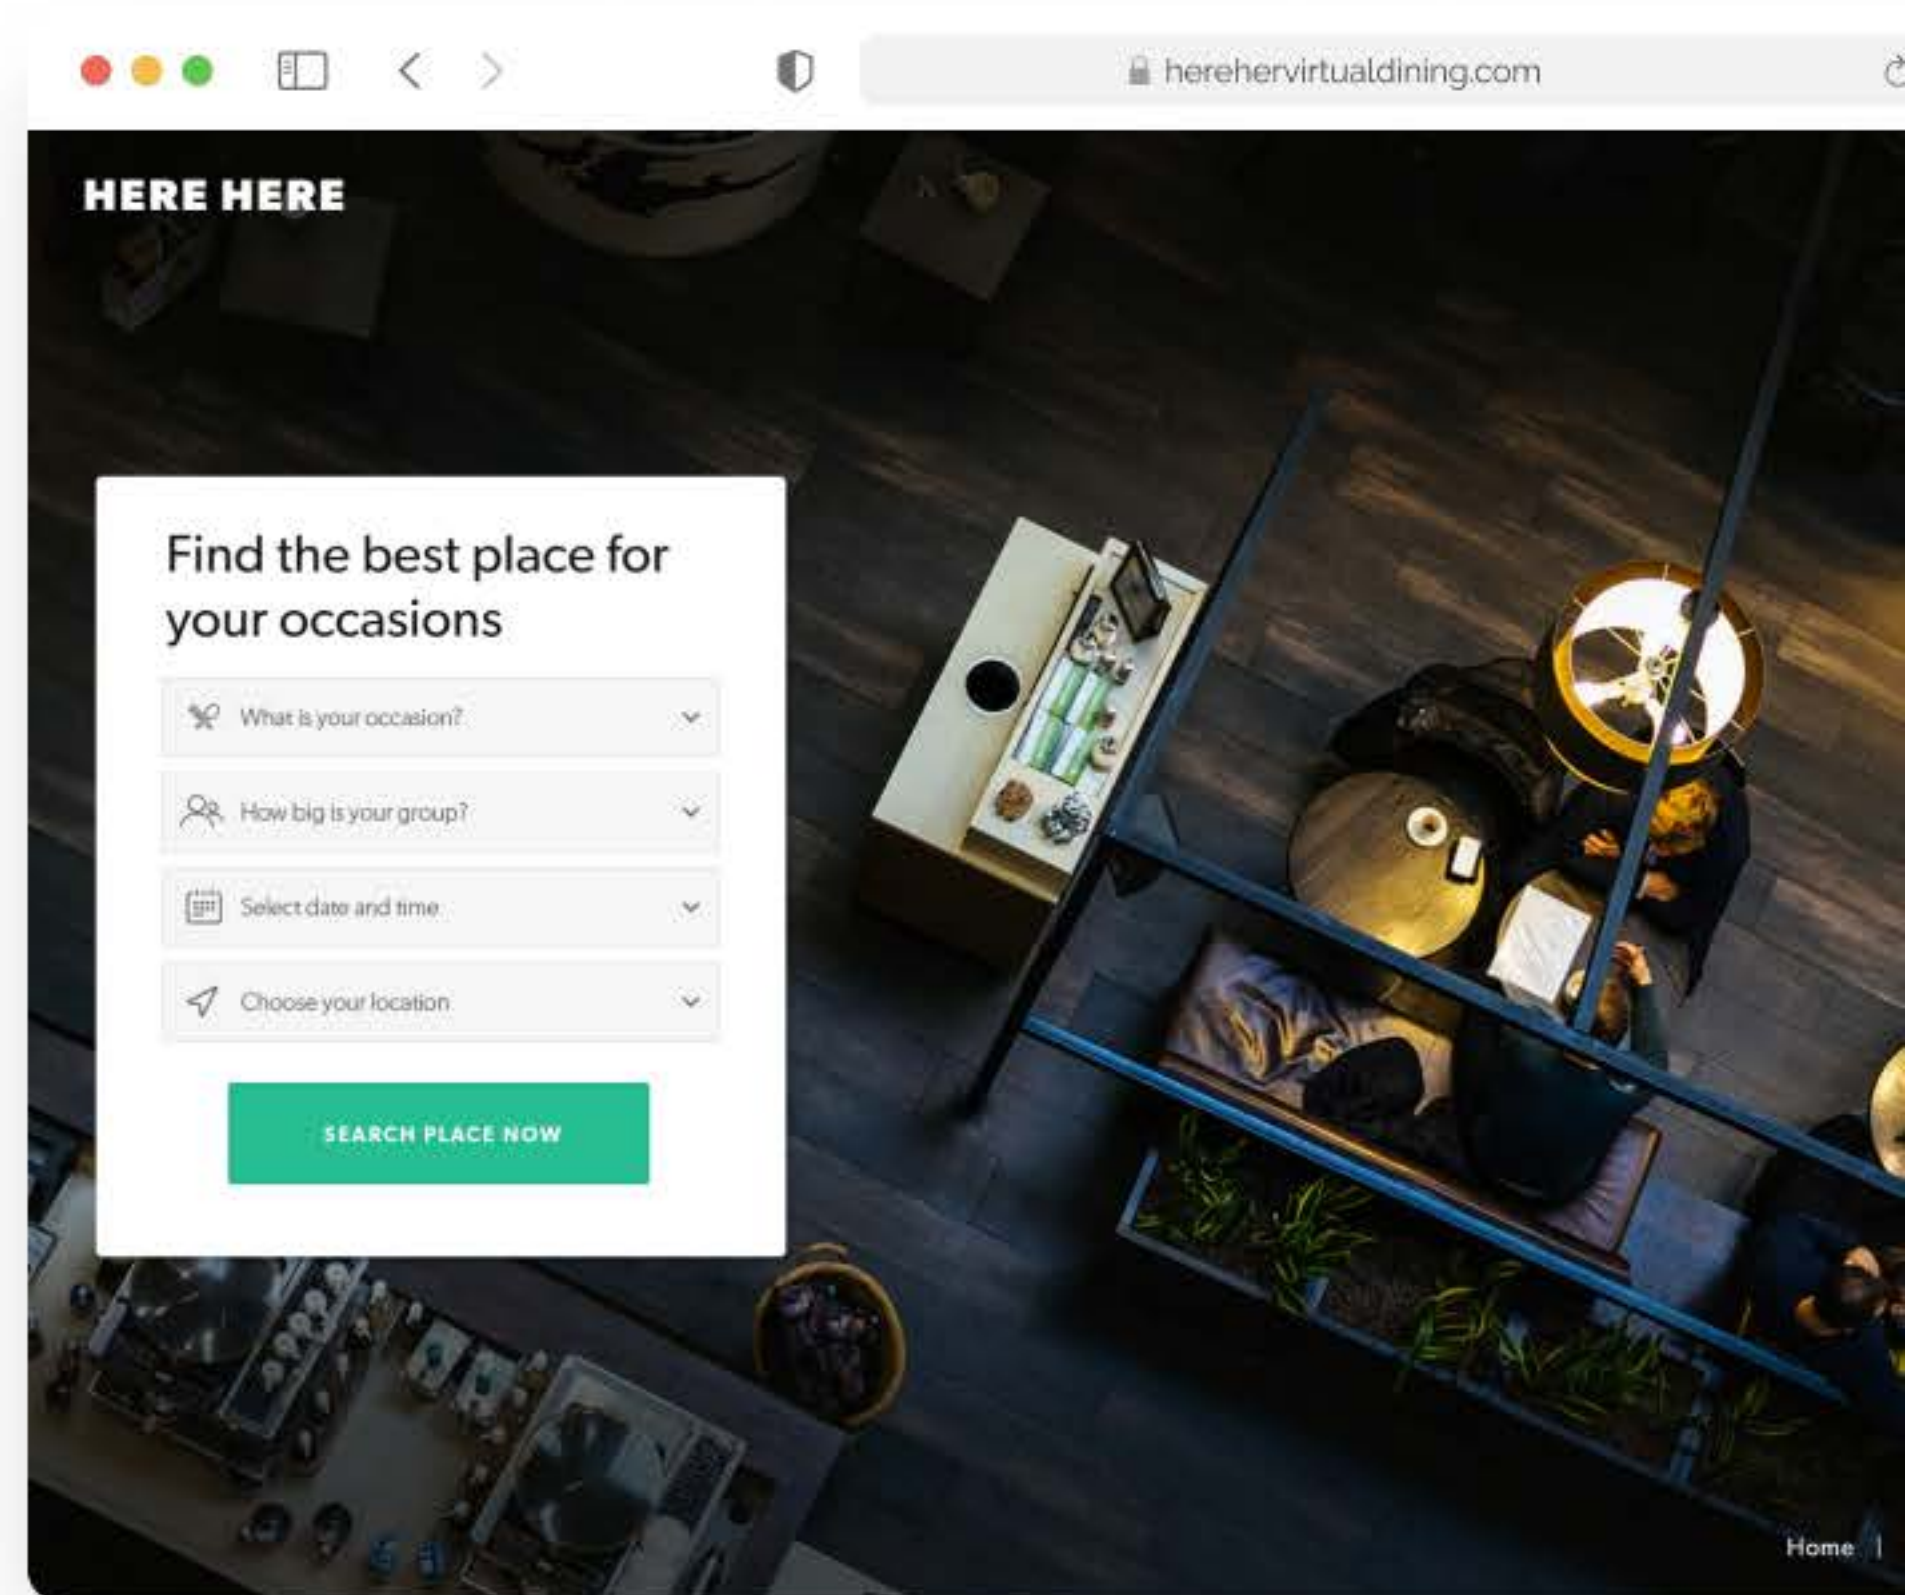

HereHere is the famous place to book
your table for your special occasions.

OVERVIEW

HereHere is the famous place to book your table for your special occasions. HereHere mission is to take the pain out of group dining.

HereHere is the largest famous virtual dining company. HereHere provided many unique features like search, pay, group, and more that stand out in the competitor list. The mobile and desktop app allows you to search and discuss restaurants with friends and quickly pay on your favorite apps.

Problems

Many people do not have the time to book a table or can't find a perfect place who can reserve a table as per the event. Also, many people face difficulties in booking a table for a group.

- Difficult to find exclusive restaurants for events.
- Spending too much time at the front desk when reaching the restaurant
- Lack of sufficient information before making the booking
- Difficult to book and arrange the table for the occasions.

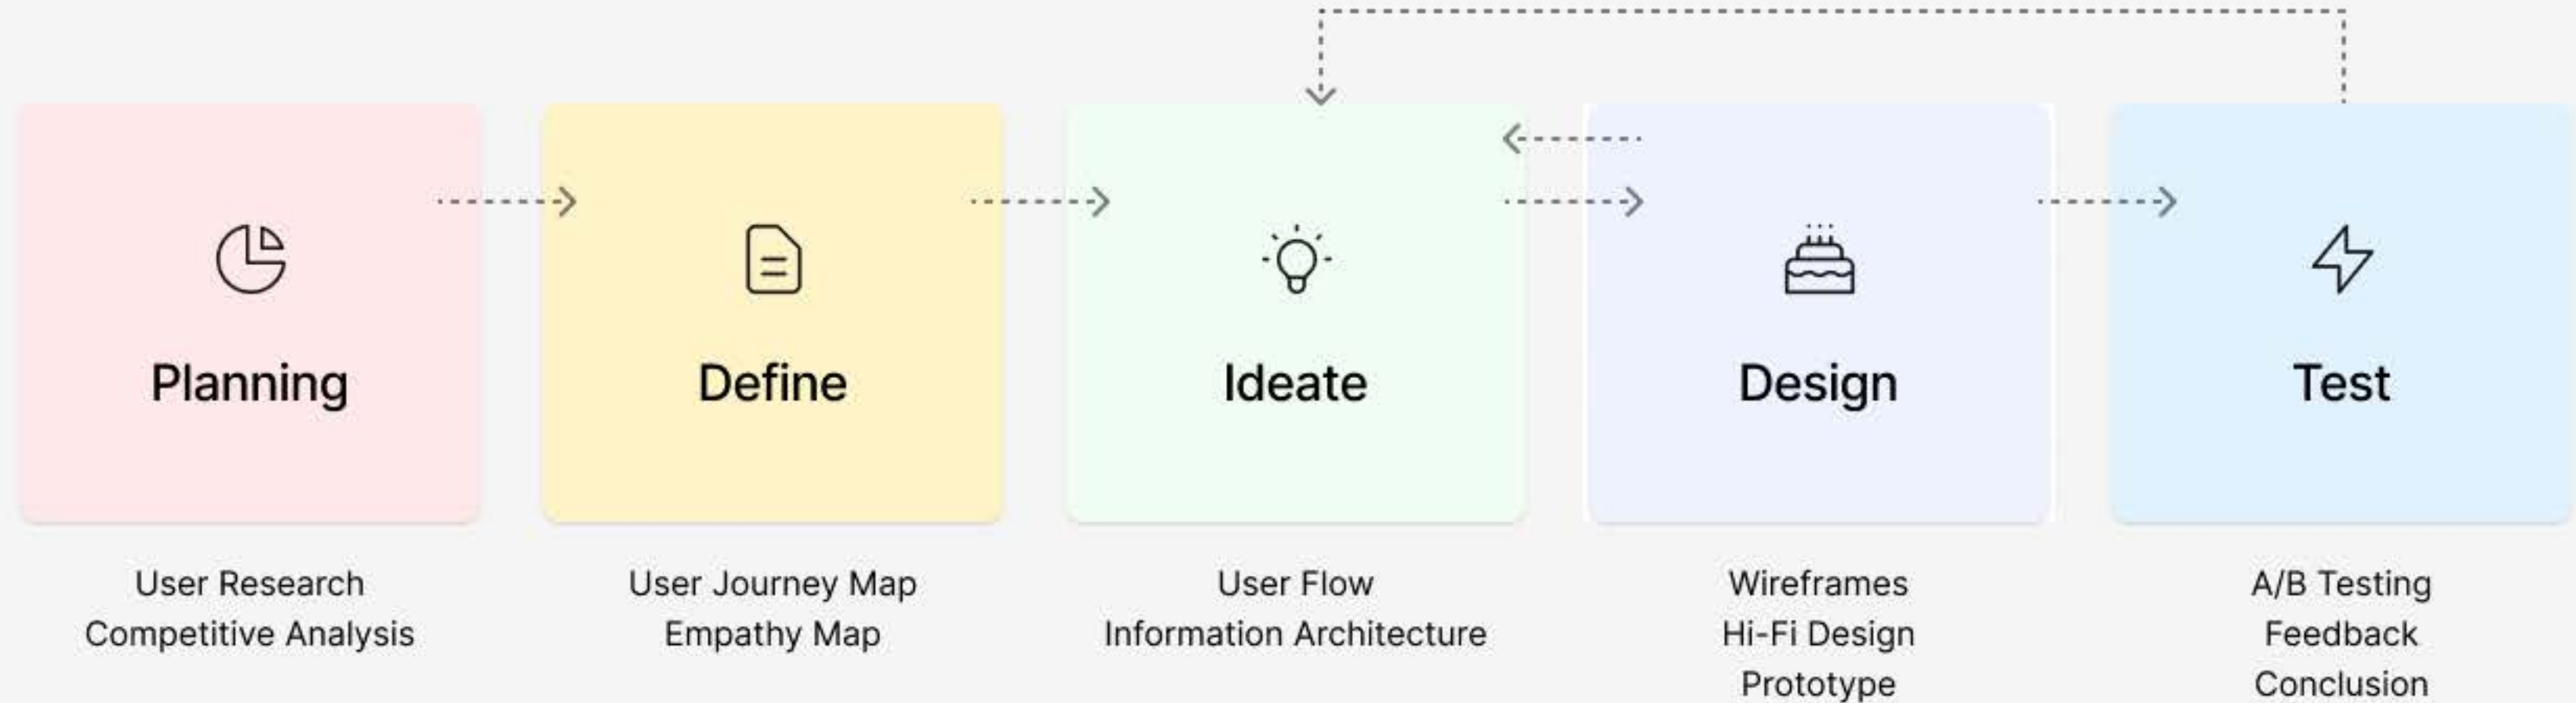

Solution

The solution will be to redesign the whole new experience that allows users to discover the information they want.

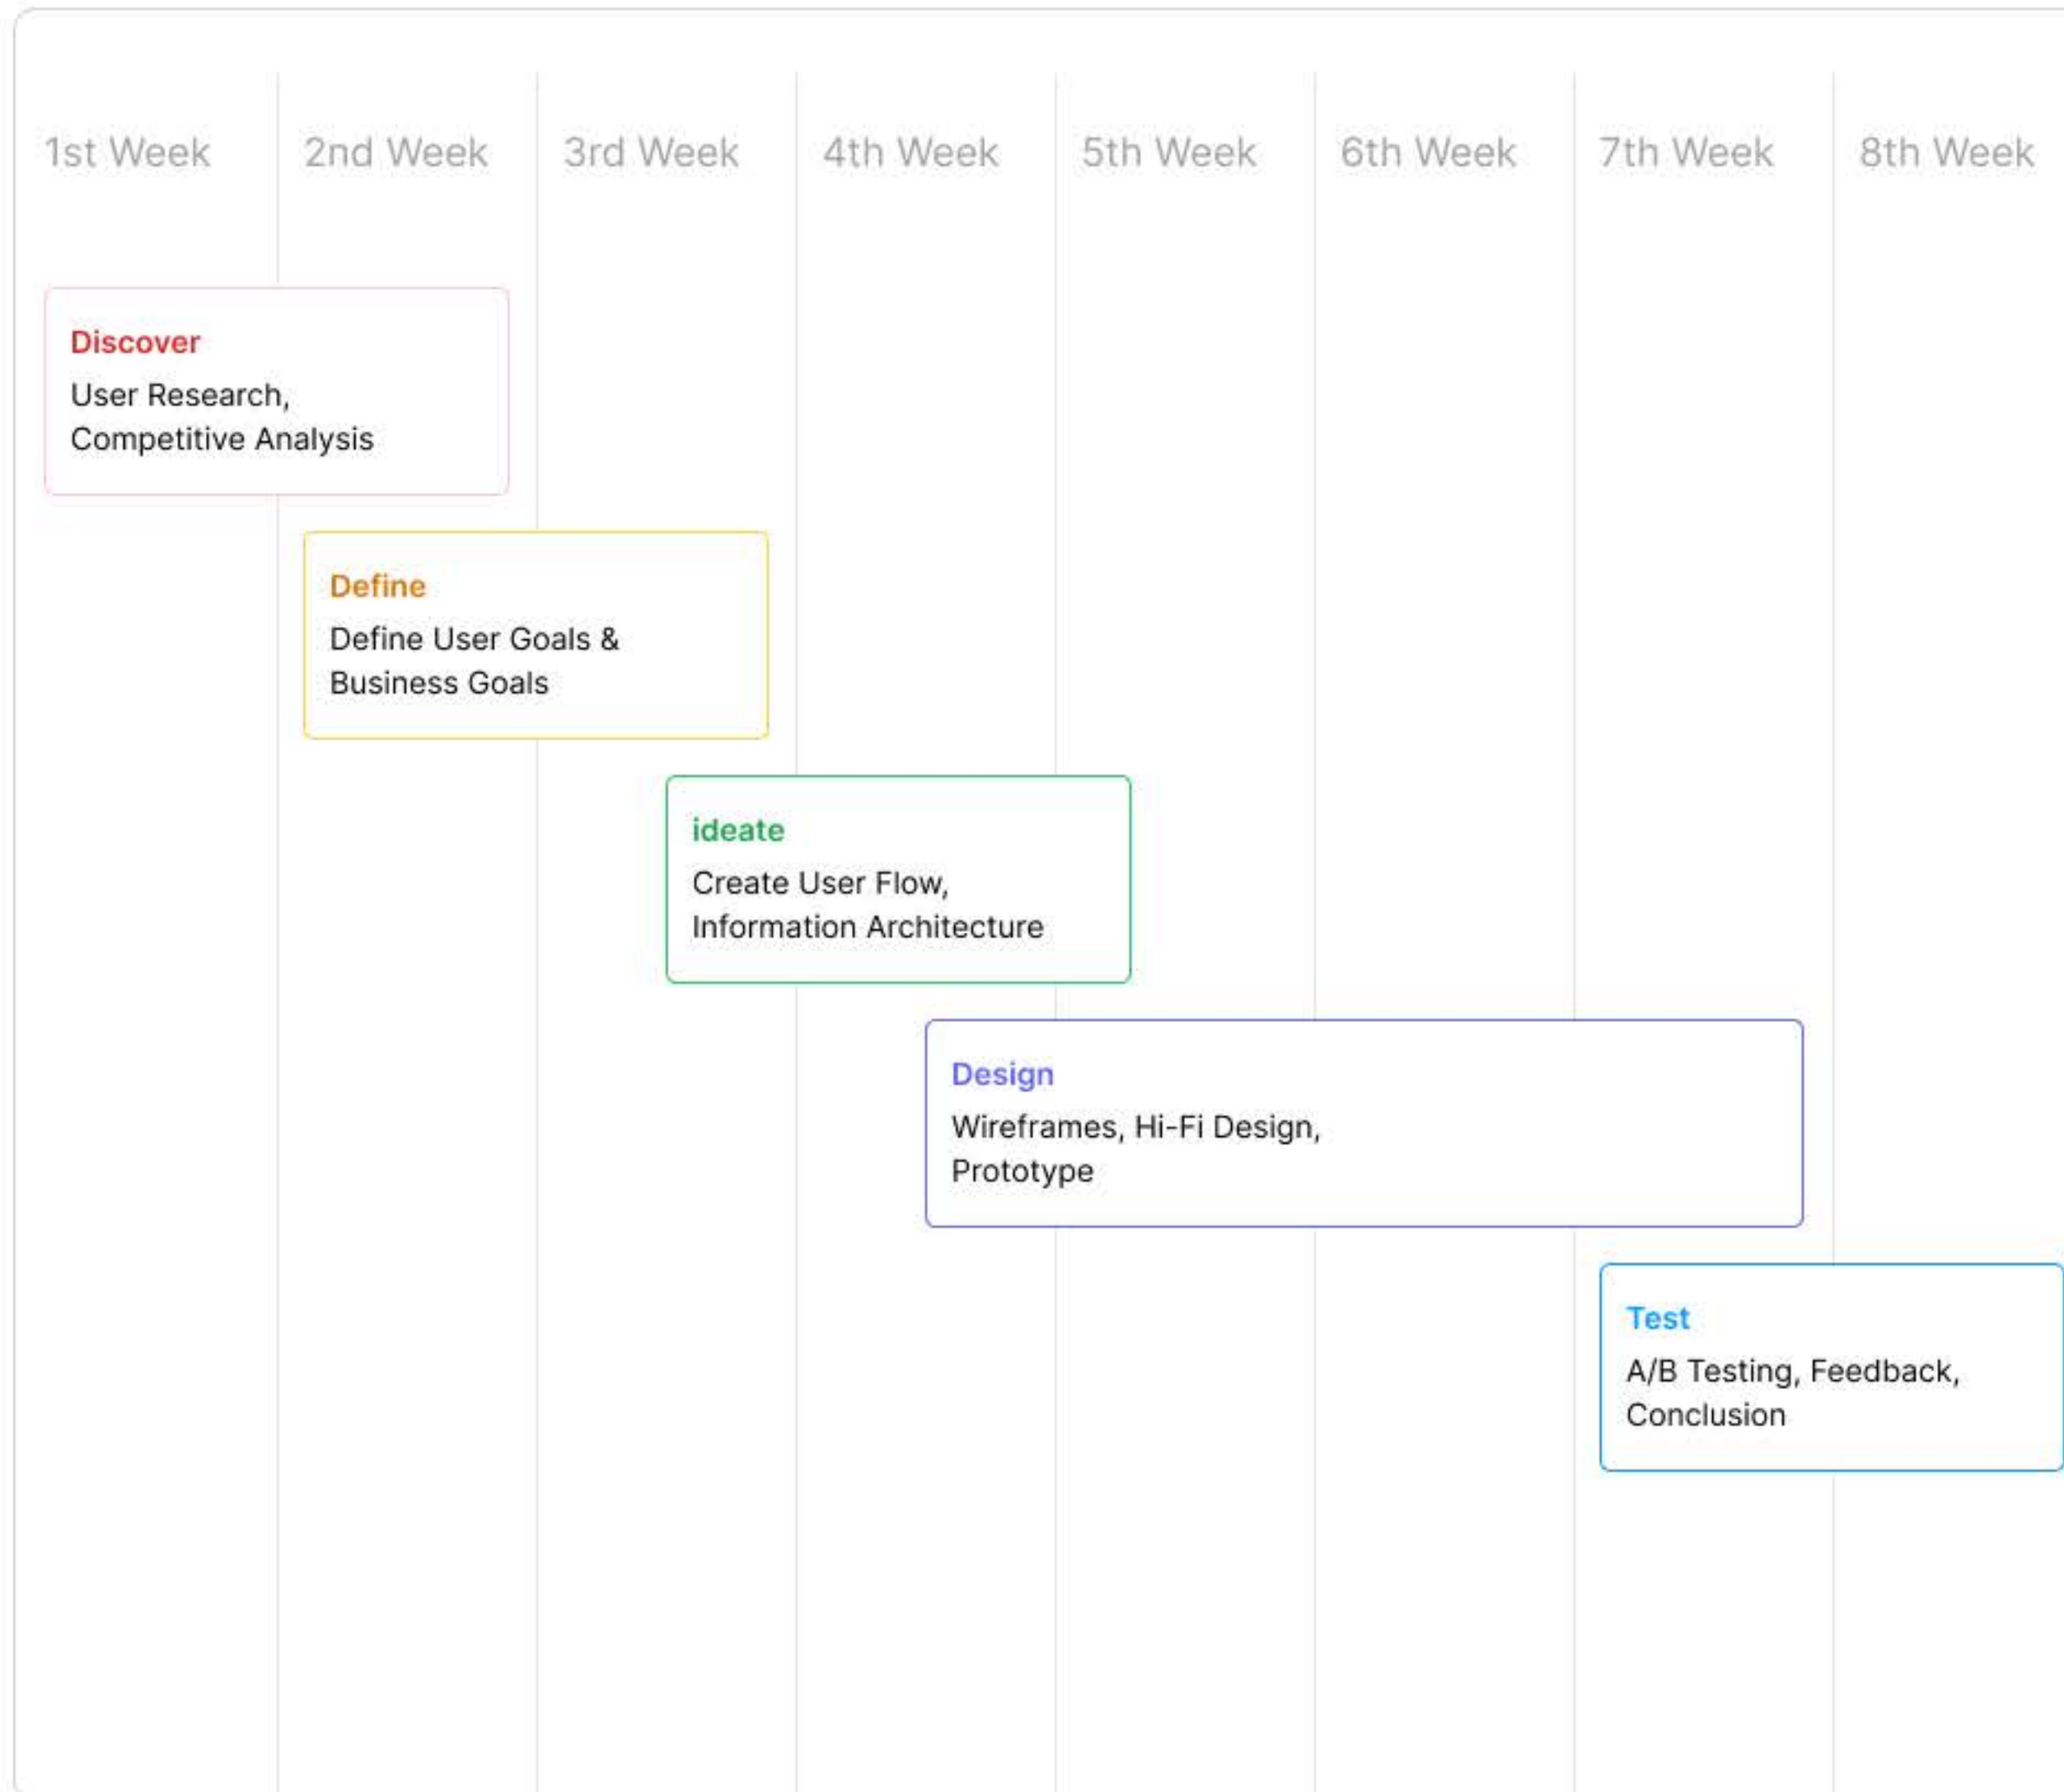

- Rebuild the whole new user experience.
- Redesign the landing page and subpages that will cover all essential information.
- Reconstruct booking-related forms with minimal required fields.
- Redevelop the entire frontend structure with the modern and user-friendly framework that helps users to book their favorite table.

Why list on TripCenter?

- Instant bookings and payment protection
- Get genuine reviews
- Improve your search engine optimisation
- Track your bookings and success
- No joining fees or upfront costs
- Set and change your prices
- You control your availability
- Use TripCenter alongside other platforms
- Personal consultancy and free training
- Customer base in 151+ countries, and growing

Vehicle types

Whether you operate one economy car, a luxury limo or 100 luxury charter buses, our customers around the world are waiting to book your chauffeured vehicle.

Private charter buses

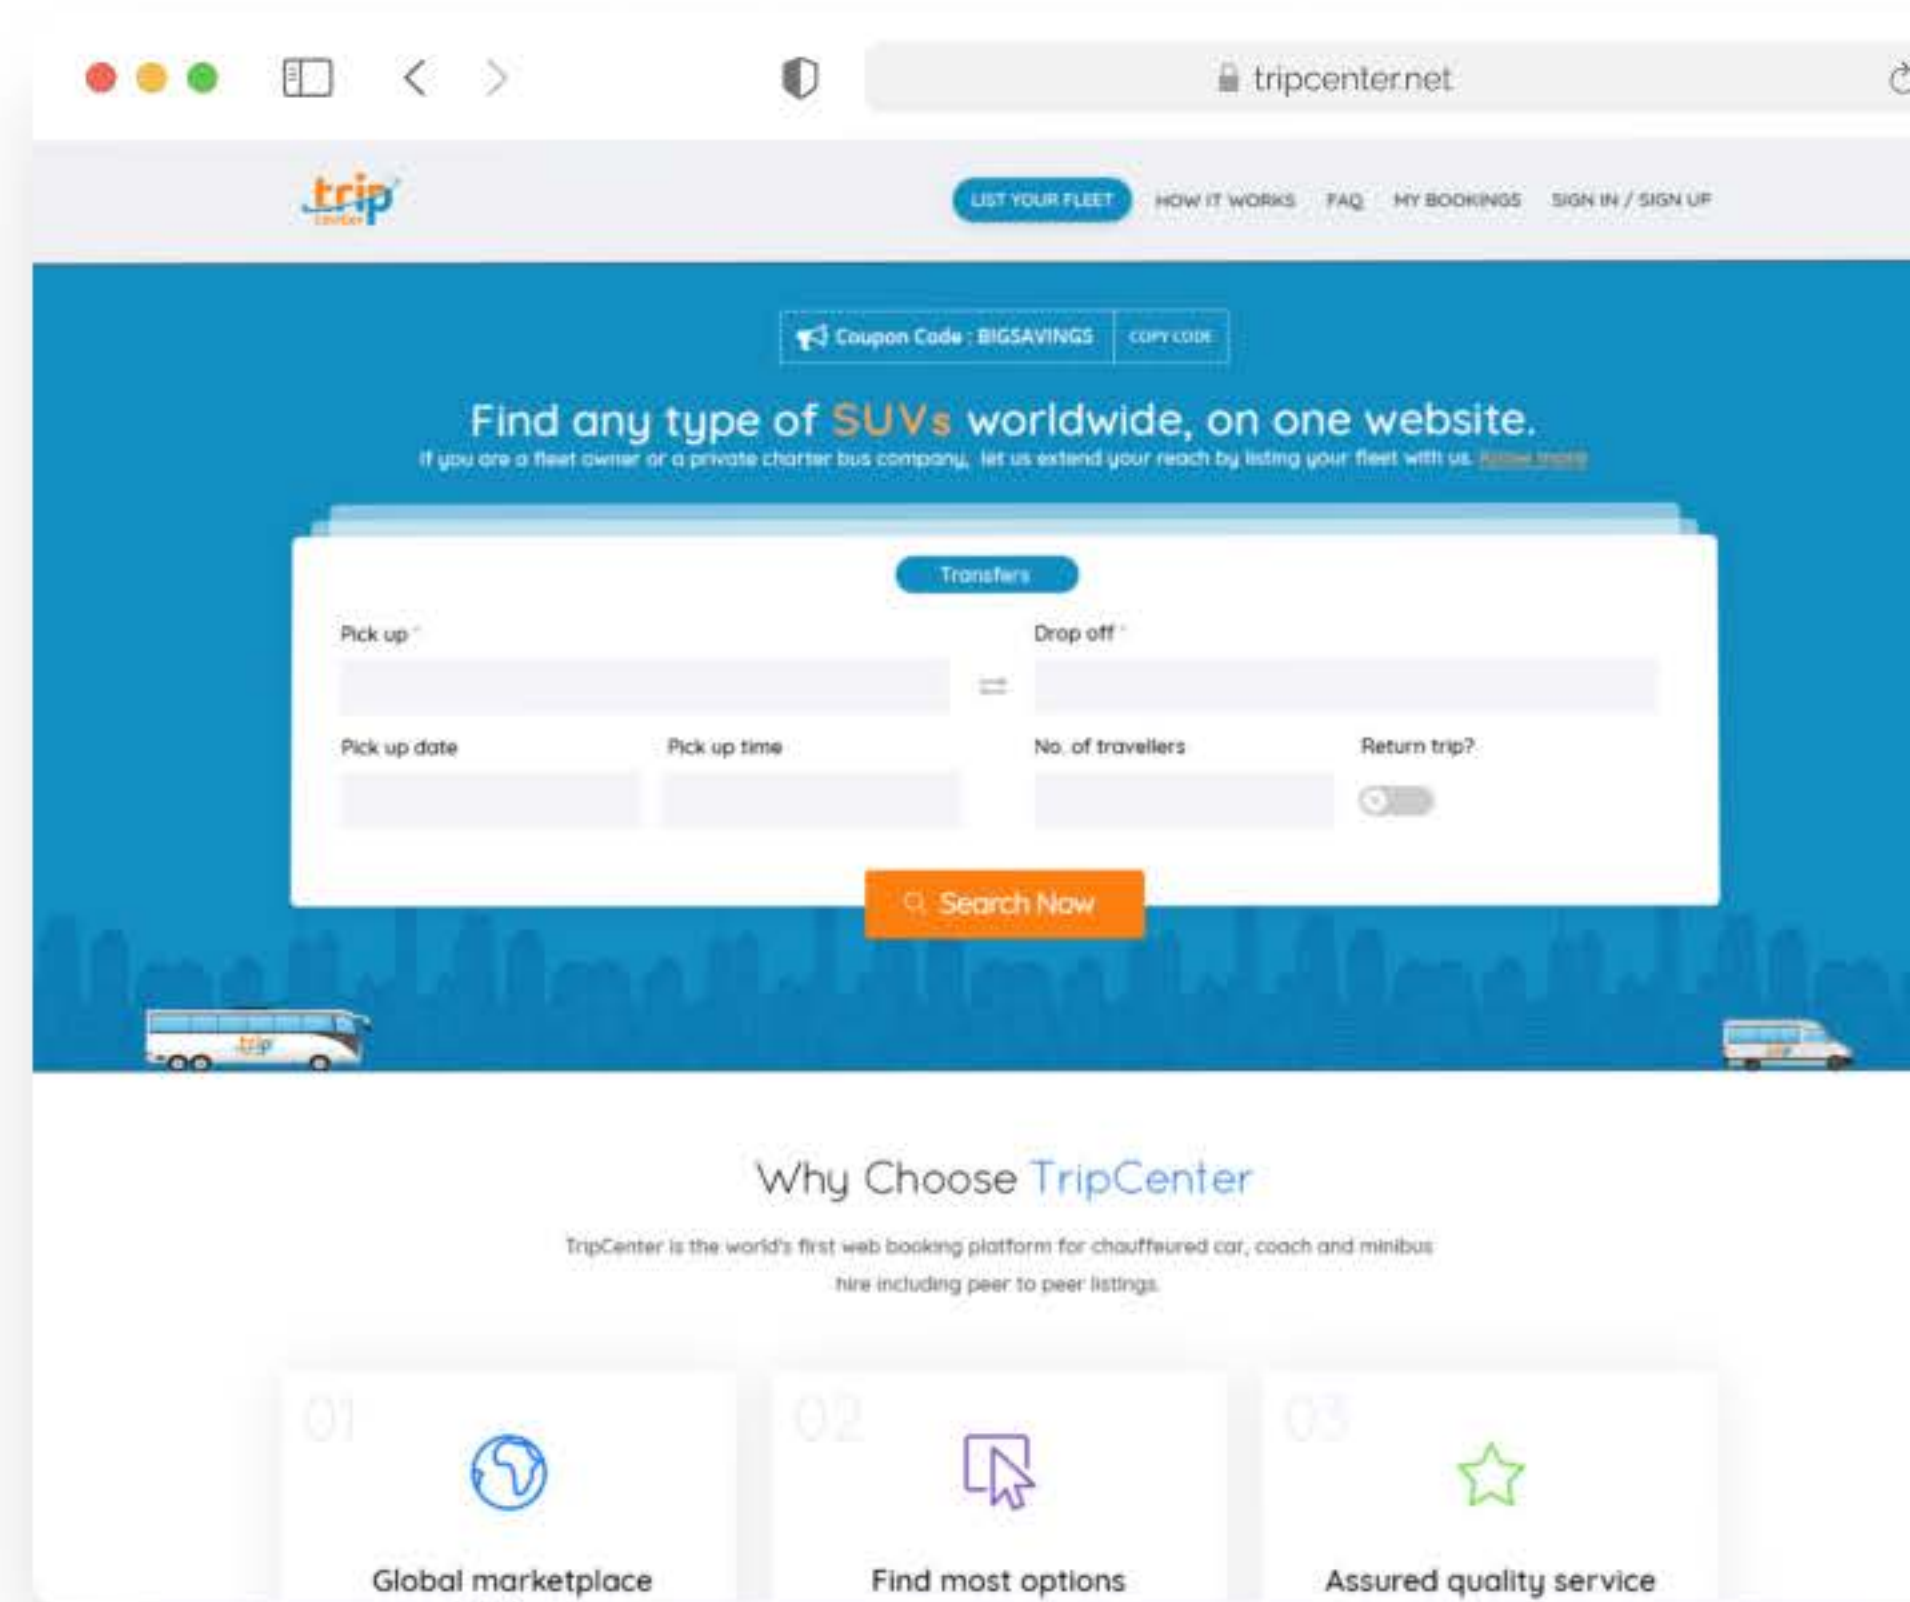

TripCenter is the world's leading chartered ground transport platform for chauffeured car, MPV, minibus, and chartered bus.

OVERVIEW

TripCenter is the world's largest chauffeured service provider. Primarily focuses on european markets.

It has a corporate, business, and leisure travelers access to a vast network of licensed, insured, reliable, professional and local chartered ground transport options across the globe. You can easily search for anything from a chauffeur-driven economy car to an 89-seat chartered bus with luxury amenities onboard at the most competitive rates globally. In addition, you can get instant quotes and book and pay online with fully transparent and content-rich vehicle listings.

Problems

Due to poor user experience and old fronted code structure, users couldn't able to find information and struggle to book vehicles.

- Difficult to find & read information.
- The vehicle photo gallery and details are not visible.
- Difficult to fill up the booking form.
- Search systems design is appealing.
- Challenging to see the website on mobile devices and iPad.

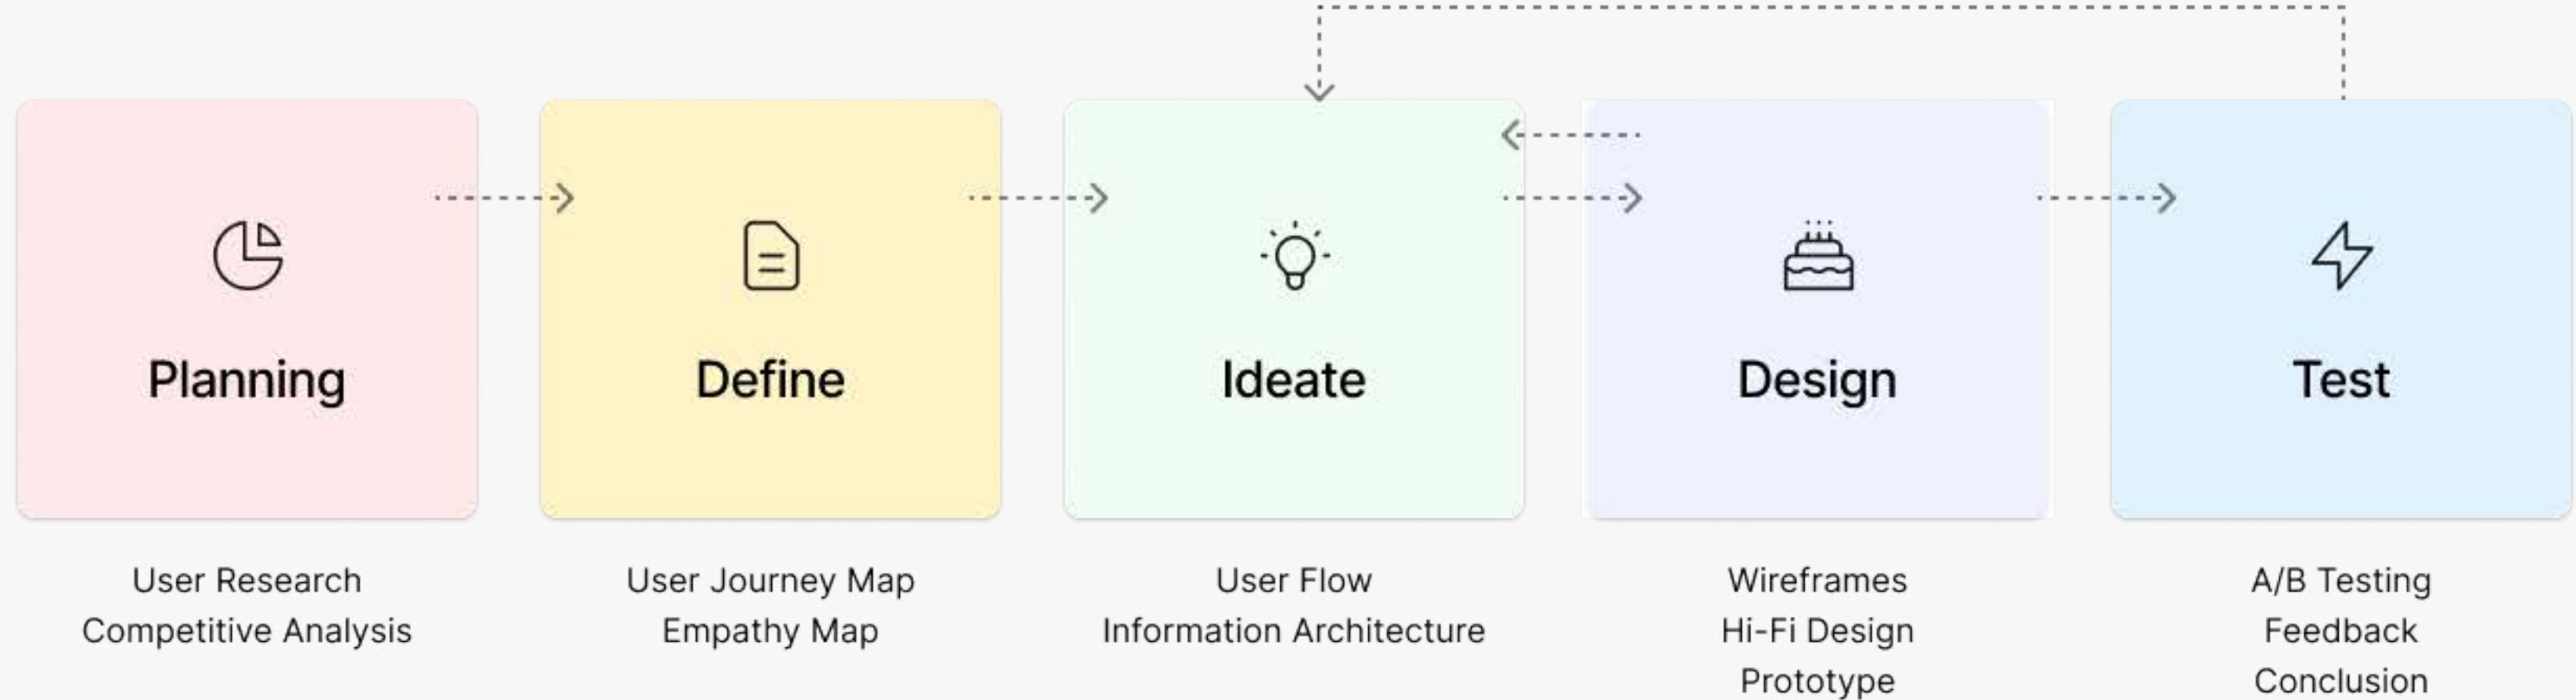

Solution

The solution will be to redesign the whole new experience that allows users to discover the information they want.

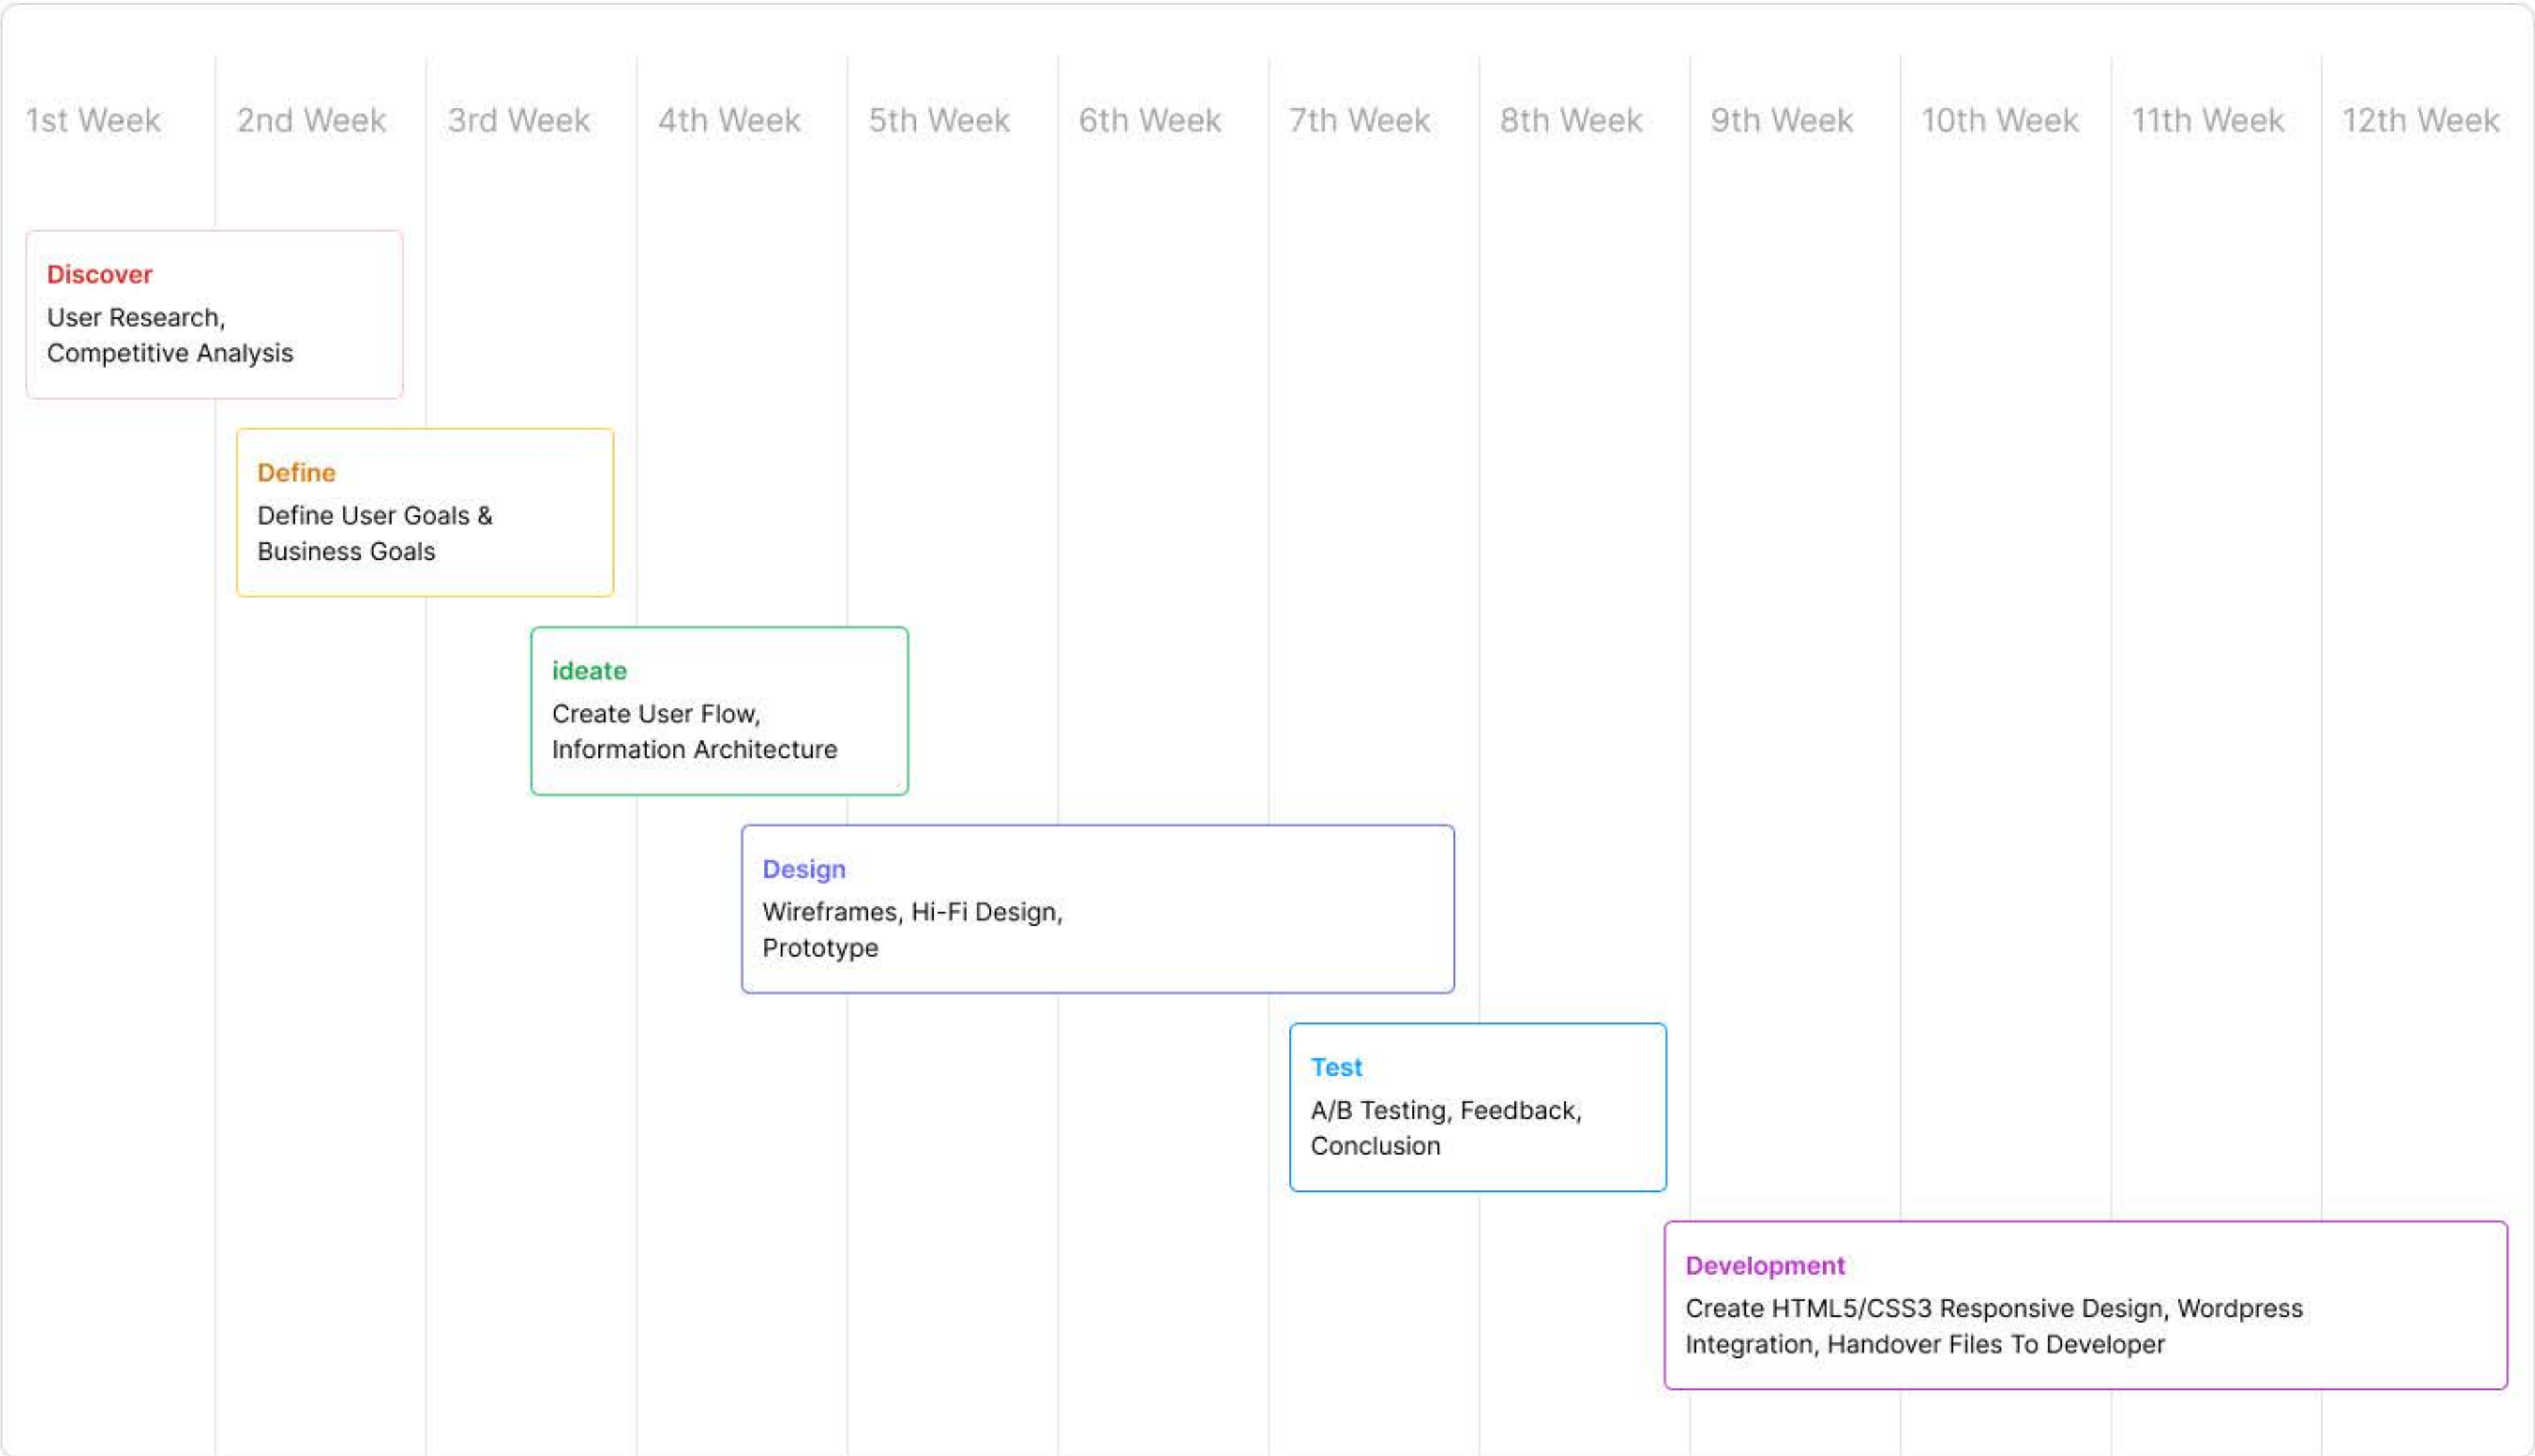

- Rebuild the whole new user experience.
- Redesign the landing page and subpages that will cover all essential information.
- Reconstruct booking-related forms with minimal required fields.
- Redevelop the entire frontend structure with the modern and user-friendly framework that helps manage the WordPress theme.

Private charter buses

4 easy steps to success

It's easy, it's free, and it's the future. You're just a few steps away from earning additional money and reaching millions of travellers with free marketing and advertising tools from TripCenter.

01 Register now

It's free and takes less than a minute.

02 No lock-in contracts

No monthly fees, no hidden costs, and you can leave any time. The only fee you pay is the commission, which is only deducted from successful bookings made through TripCenter.

03 You're in complete control

Manage your account on the go from any device with live pricing and availability. We're there to help you along the way.

04 Get paid on time

Your client pays when they book, so you know your money's safe. We transfer money electronically, in the currency you select. Our easy service handles refunds and covers all credit card, bank and transfer fees for you.

Types of trips you can expect

More than 3,000,000 kilometres are already travelled by travellers across the globe with TripCenter.

Marketing and promotions

The commission you pay goes further with TripCenter. Here's how:

Search engine optimisation

Listing your fleet on TripCenter will help push it to the top of Google and other search engines.

Your fleet on show

TripCenter is a shop window for your business. You can showcase all your vehicles and their attributes.

Use it on your website

Our API means you can host the TripCenter booking engine on your own website, giving your customers faster, easier booking.

Promote yourself

Our platform has built-in tools so you can create coupons and discounts for your customers.

We're well connected

We are partnered with search engines, airlines, hotel chains, rail companies and more for a complete service.

We're in demand

Travel writers, bloggers and social media influencers are connecting with our brand and suppliers. Read what they're saying [here](#).

Paris - Cannes

Testing Phase

I used the prototype to conduct a test with four users in our target demographic. Participants were able to use the app with ease and happy with the design. There were few positive and negative feedbacks. It helped me uncover opportunities to improve the overall user experience by building an effective, efficient, and enjoyable experience for my users.

Thank You.
